

Learn how your competition may be reducing costs and improving efficiencies through:

- Increased asset utilization
- Increased asset visibility
- Automatic identification and tracking of trucks & trailers
- Automatic identification and tracking of shipments
- Automatic identification and tracking of inventory & WIP

This informative and hands-on Radio Frequency Identification (**RFID**) workshop will help you maximize the potential for making a successful decision when it comes to managing and improving the internal efficiencies within your company. Attend and find about the benefits of RFID!

"We have seen multiple benefits from our RFID implementation. The visibility gained has provided better asset utilization and inventory tracking. It's allowed us to reduce the number of assets we require!"

Dave Szefflin, Paramount Farms

"RFID has saved us time and money by improving the accuracy and security of our yard access as well as knowing where our trucks and trailers are at any given time."

Steve Taylor, Meijer
